## HATEN BUBIS **ENVIRONMENTAL INFORMATION** FOR PETITIONS

(THIS IS NOT A CEQA DOCUMENT)

APPLICATION NO. 30369 P. 30405	ERMIT NO.	LICENSE NO
--------------------------------	-----------	------------

The following information will aid in the environmental review of your change petition as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR CHANGE PETITION TO BE ACCEPTED AS COMPLETED, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your change petition being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

#### DISCRIPTION OF CHANGES TO PROJECT

of construction activity, structures existing or to be built, area to be graded or excavated, changes in land use, and project operational changes, including changes in how the water will be used.  Applications 30368, 30369 and 30405 were filed in 1994 to bring existing operations into
compliance. At the time of filing, there were several acres of existing vineyard that were not
being irrigated with appropriated surface water, and were not included as place of use in the
applications. Since that time, the irrigation and frost control systems have been extended into
those areas, so petitions are being filed to add the additional vineyard as place of use under
the pending applications. Additionally, 25 acres of pasture land will be converted to vineyard,
and is included as place of use in the petitions.

#### **GOVERNMENTAL REQUIREMENTS**

Before a final decision can be made on your change petition, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your proposed changes by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your change petition. The following questions are designed to aid us in that determination.

2.	Con a.	ntact your county planning or public works department for the following information:  Person contacted not required Date of contact					
		Department Telephone ( )					
	b.	Assessor's Parcel No. 51-170-09, 13; 51-160-29; 51-180-01					
	c.	County Zoning Designation Ag Preserve					
	d.	Are any county permits required for your proposed changes? no  If yes, check appropriate space below:  Grading Permit, Use Permit, Watercour Obstruction Permit, Change of Zoning, General Pla					
		Change, Other (explain):					
	e.	Have you obtained any of the required permits described above? <u>n/a</u> If yes, provide a complete copy of each permit obtained.					
3.	from Soi Rec	re any additional state or federal permits required for your proposed changes? <a href="Non-Williams">Non-Williams</a> (i.e. on Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management of Conservation Service, Department of Water Resources (Division of Safety of Dams), eclamation Board, Coastal Commission, State Lands Commission, etc.) For each agency from hich a permit is required provide the following information:					
	Per	ermit type					
	Per	erson (s) contacted Agency					
		ate of contact Telephone ( )					
4.		as any public agency prepared an environmental document for any aspect of your proposed anges? underway					
	the exp	so, please submit a copy of the latest environmental document (s) prepared, including a copy e notice of determination adopted by the public agency. If not, explain below whether you spect that a public agency other than the State Water Resources Control Board will be preparing environmental document for your change petition or whether the applicant, if it is a California					

public agency, will be preparing the environmental document for your change petition:

5. V c	Note: When completed, please submit a copy of the final environmental document (including notice of determination) or notice of exemption to the State Water Resources Control Board. Processing of your change petition cannot proceed until such documents are submitted.  Will your proposed changes, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? If so, explain:
c	Will your proposed changes, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? If so, explain:
	ause erosion, turbidity or sedimentation? <u>no</u> If so, explain:
f	If yes or you are unsure of your answer, contact your local Regional Water Quality Control Boar for the following information (See attachment for address and telephone number):
V	Will a waste discharge permit be required for your petition?
I	Person contacted Date of contact
7	What method of treatment and disposal will be used?
6. I	Have any archeological reports been prepared on this project, or will you be preparing an archeological report to satisfy another public agency? see below
]	Do you know of any archeological or historic sites located within the general project area?
	If so, explain: An archaeololgical survey is being conducted as a part of the
- nitial	I Study which is underway.

# ENVIRONMENTAL SETTING

7. Attach <u>THREE COMPLETE SETS</u> of color photographs, clearly dated and labeled, showing the vegetation currently existing at the following locations:

- a. Along the stream channel immediately downstream from the proposed point(s) of diversion
- b. Along the stream channel immediately upstream from the proposed point(s) of diversion
- c. At the place(s) where the water is to be used <a href="Note">Note</a>: It is very important that you submit no less than three complete sets of photographs as required above. If less than three sets are submitted, processing of your change petition will be delayed until you furnish the remaining sets!
- 8. From the list given below, mark or circle the general plant community types which best describe those which occur within you project area (Note: See footnote denoted by \* under Question 11 below):

9.	Provide below an estimate of the type, number, and size (trunk/stem diameter at chest height) of trees and large shrubs that are planned to be removed or destroyed due to implementation of the proposed changes. Consider all aspects of your change petition, including changes in diversion structures, water distribution and use facilities, and changes in the place of use due to additional
	at the top of this form or you may purchase a copy by calling the California Department of Fish and Game, Wildlife Habitat Relationships (WHR) Program at (916) 653-7203).

*Note: The purposes of Question 10 and 11 are to provide a preliminary assessment of the presence of typical plant and animal species in the area and whether these species might be affected by your proposed changes. Detailed site surveys to quantify populations of specific species or determine the presence of rare or endangered species may be required at a later date. It is very important that you answer these questions accurately. If you are unable to obtain appropriate answers from your local California Department of Fish and Game biologists (See attachment for address and telephone number) or you do not have adequate information or expertise to complete your answers, you should hire a fishery consultant and/or a wildlife consultant to review your project and prepare suitable answers for you. For information on available qualified fishery or wildlife consultants near you, consult your local telephone directory yellow pages under Environmental and Ecological Services, or call the California Environmental Protection Agency, Registered Environmental Assessor (REA) Program, at (916) 324-6881 or the University of California, Cooperative Extension Service (See your local telephone directory white pages).
12. Do your proposed changes involve any construction or grading-related activity which has significantly altered or would significantly alter the bed or bank of any stream or lake?
If so, explain:
<u>CERTIFICATION</u>
